

## Taping Tips

Although challenging in its makeup and manufacture, vinyl electrical tape is relatively straightforward in its use. Nevertheless, to ensure the safest, most reliable use, always:

- Apply tape with enough stretch to conform to the objects you're wrapping. Be sure to let the last couple of inches relax before tabbing it down to prevent unwinding (sometimes called "flagging").
- Wrap an irregular mechanical connector, such as a split bolt, with rubber or mastic tape to pad sharp edges, before overwrapping it with vinyl electrical tape.
- Wrap cone-shaped (high voltage splices) "uphill" - that is, from the smallest to the largest point. This way you always secure the previous layer.
- Keep fingers close together when tearing tape. The farther apart they are, the more the tape will stretch before it tears.
- Use the right tape for the right conditions. Vinyl tapes are rated for cold-weather application in two classes: $32^{\circ} \mathrm{F}\left(0^{\circ} \mathrm{C}\right)$ and $0^{\circ} \mathrm{F}\left(-18^{\circ} \mathrm{C}\right)$. Tapes formulated for hightemperature environments are typically rated $176^{\circ} \mathrm{F}$ $\left(80^{\circ} \mathrm{C}\right)$ or $220^{\circ} \mathrm{F}\left(105^{\circ} \mathrm{C}\right)$.

## WRAPPING TIPS

## TYPE OF TAPE

Vinyl Electrical Tapes - Jacketing and Mechanical Protection

Rubber Tapes - Electrical Insulation, Mechanical Padding, Water Sealing and Shaping

High Voltage Tapes - Insulating and Semi-conductive Layers

Mastic Compounds - Insulating, Mechanical Padding, Moisture Sealing and Shaping

## NUMBER OF LAYERS/APPLICATION INSTRUCTIONS

Always use a minimum of two half-lapped layers. The last layer should be wrapped in a more relaxed manner - let the last wrap relax to prevent the layer from flagging.

Wrap tape tightly to achieve the watertight seal. Rubber tapes are typically overwrapped with vinyl tape.

Apply outside of roll to the cable, in highly stretched half-lapped layers. Never use a semi-conductive tape as an insulation.

Mastic compounds are to be overwrapped with vinyl tapes to initiate flow and watertight seal. Do not apply excessive amount of mastic to prevent oozing.

## Glossary of Taping Terms

## ADHESIVE

The medium that allows the backing to be quickly, positively and efficiently positioned to do its job.

## ADHESION TO BACKING

The bond produced by contact between a pressure-sensitive adhesive and the tape backing when one piece of tape is applied to the back of another piece of the same tape.

## BACKING

The material that performs the tape's desired functions (insulation, protection, identification, holding).

## CONFORMABILITY

The ability of tape to fit snugly or make essentially complete contact with the surface of an irregular object without creasing or folding. Any tape can be applied to any surface, but it may not conform.

## DIELECTRIC STRENGTH

The voltage that a tape will withstand without allowing passage of current through it.

## ELASTIC MEMORY

A tendency of some tape backings to attempt to return to their original length after being elongated.

## ELECTROLYTIC CORROSION FACTOR

A measure of the tape's corrosive effect on a copper conductor. This is particularly important in the selection of tapes for use as electrical insulation.

## ELONGATION

The distance a tape will stretch lengthwise before breaking, expressed in a percentage. Elongation is an indication of conformability.

## FLAGGING

When the end of a length of tape peels away from the surface after the tape has been applied.

## GAPPING

Openings between layers of tape within a roll.

## HOLIDAY

A small defect that lowers the dielectric strength at the point of the defect.

## MIGRATION

The movement, over a long period of time, of an ingredient from one surface to another when the two are in contact. This may occur between tape components or between a tape and the surface to which it is applied.

## OOZING

A "squeezing out" of the adhesive from between the layers of tape so that the sides of the roll are very tacky.

## PEAKING

Large "upheavals" in the outer layers of a roll of tape, when several layers bunch and protrude outward.

Creates gapping within the roll.

## PEEL ADHESION

The force required to pull a strip of tape from a surface at a specified angle and speed. Usually expressed in ounces per inch width.

## PRESSURE-SENSITIVE

A term commonly used to designate a category of adhesive tapes that, in dry (solvent-free) form, are aggressively and permanently tacky at room temperature. They also firmly adhere to a variety of dissimilar surfaces upon contact without the need of more than finger or hand pressure. Despite their aggressive tackiness, however, these tapes can be handled with the fingers and removed from smooth surfaces without leaving a residue.

## PRIMER

Material applied to the underside of the backing that prevents the adhesive from adhering to both sides of the backing.

## TACKY

A lab synonym for "sticky," or highly adhesive. Sometimes used to express the idea of pressure sensitivity.

## TELESCOPING

A sliding of the tape layers one over the other until the roll assumes a funnel shape.

## THERMOSETTING

Adhesive that sets or hardens on first exposure to heat, and remains set regardless of subsequent temperature cycles.

## Vinyl Electrical Tapes

## Scotch ${ }^{\circ}$ Super 33+"' Vinyl Electrical Tape

Scotch Super 33+ Vinyl Electrical Tape is a professional grade, all-weather vinyl electrical
 insulating tape. Super $33+$ is conformable for cold weather application to $0^{\circ} \mathrm{F}\left(-18^{\circ} \mathrm{C}\right)$ and is designed to perform in a continuous temperature environment up to $220^{\circ} \mathrm{F}\left(105^{\circ} \mathrm{C}\right)$. An aggressive adhesive and elastic backing enables Super 33+ to easily conform to irregular surfaces for moisture-tight electrical and mechanical protection. Super 33+ provides flexibility and easy handling for all around performance.

## Scotch ${ }^{\circ}$ Vinyl Electrical Tape 35

Scotch Vinyl Electrical Color Coding Tape 35 is a premium-grade electrical tape that stretches
 to conform to virtually any shape that requires color-coded insulation. Scotch 35 is abrasion- and weather-resistant, with excellent mechanical and electrical insulation properties, and wraps smoothly and holds tight over a wide range of temperatures. There are nine stay-fast colors for color-coding applications.

[^0]

Scotch ${ }^{\circ} 33+$ Vinyl Electrical Tape

## Scotch ${ }^{\circledR}$ Vinyl Electrical Tape Super 88

Scotch Vinyl Electrical Tape Super 88 is a 8.5 mil heavy duty, premium grade all-weather vinyl electrical insulating tape. Super 88 maintains
 conformability for cold weather applications:

- Better mechanical/ abrasion resistance
- Quicker build-up

Scotch ${ }^{\circ}$ Vinyl Electrical Tape Super 88

Scotch ${ }^{\circ}$ Vinyl Electrical Tape Super 88

## Scotch ${ }^{\bullet}$ Vinyl Insulation Tape 22

Scotch Vinyl Insulation Tape 22 is one of 3M's thickest ( $10-\mathrm{mil}$ ) vinyl electrical tapes.
 It is designed for insulation applications that require greater mechanical strength and abrasion resistance. Scotch 22 seals in all kinds of weather and provides moisture-tight electrical and mechanical protection with fewer wraps than thinner tapes.

## Scotch ${ }^{\ominus}$ Vinyl Electrical Tape 66R

Conformable 10-mil thick Scotch Vinyl Electrical Tape 66R is designed to perform
 in a continuous temperature environment up to $220^{\circ} \mathrm{F}$ $\left(105^{\circ} \mathrm{C}\right)$. It has excellent resistance to abrasion, moisture and varying weather conditions (including ultraviolet exposure). Scotch 66R, with its combination of elastic PVC backing and rubber adhesive, provides moisture-tight electrical and mechanical protection.

## 3M Electrical Tapes Training Kit

In this kit you will find supplies for the following applications:

- Insulating and wrapping a split bolt
- Insulating and wrapping a motorlead connection
- Insulating and wrapping an inline splice
- Insulating and wrapping a bus bar

[^1]
## PREMIUM VINYL ELECTRICAL TAPES

| FEATURES | ADVANTAGES | BENEFTTS |
| :--- | :--- | :--- |
| All-weather tape design | Best adhesion and handling in all <br> weather conditions | Makes job easier <br> and eliminates redos |
| Resists weather, UV resistance, <br> abrasion and corrosion | Long lasting | Lower maintenance cost |
| Far exceeds minimum agency requirements | Highest quality in product category | Provides freedom from worry |

## Insulating and Splicing Tapes

## Scotch ${ }^{\circ}$ Linerless Rubber Splicing Tape 130C

Scotch Electrical Tape 130C is a highly conformable，linerless Ethylene Propylene
 Rubber（EPR），high－voltage insulating tape that provides excellent thermal dissipation of splice heat．Scotch 130C meets industry specifications and has excellent physical and electrical properties，which helps provide immediate moisture seal and void－free buildups．Scotch 130C is rated up to $194^{\circ} \mathrm{F}\left(90^{\circ} \mathrm{C}\right)$ continuous operating temperatures and short－term $266^{\circ} \mathrm{F}\left(130^{\circ} \mathrm{C}\right)$ overload service．This tape should be applied like any rubber tape－that is，the side of the tape wrapped inside the roll should be applied outside on the splice（tacky side up）．This will help prevent the roll from getting progressively further away from the work area．

Scotch ${ }^{\circledR}$ Rubber Splicing Tape 23

## Scotch ${ }^{\circ}$ Rubber Splicing Tape 23

Scotch Rubber Splicing Tape 23 is a highly conformable， self－fusing Ethylene Propylene Rubber（EPR）－based， high－insulating voltage tape．Scotch 23 has a＂snakeskin＂ liner that is easily removed as the tape is applied．

## Scotch ${ }^{\circ}$ Electrical Semi－Conducting Tape 13

Scotch Electrical Semi－Conducting Tape 13 is a highly conformable，semi－conducting Ethylene Propylene Rubber

Scotch ${ }^{\text {L }}$ Linerless Rubber Splicing Tape 130C
（EPR）－based，high－voltage splicing tape．Scotch Electrical Tape 13 elongates easily to conform to irregular shapes and retains its conductivity when stretched．

## Scotch ${ }^{\circ}$ Electrical Shielding Tape 24

Scotch Electrical Shielding Tape 24 is an all－metal， flat，open－weave shielding braid that is compatible with power cable insulations and all high－voltage splicing and terminating materials．Scotch Electrical Shielding Tape 24 elongates easily to conform and is temperature stable．

## Scotch ${ }^{\circ}$ Electrical Grounding Braid 25

Scotch Electrical Grounding Braid 25 is a flat，all－metal woven electrical grounding braid that is compatible with all power cable insulations and high－voltage splicing and terminating materials．The Scotch Electrical Grounding Braid 25 is conformable and temperature stable，and has a high carrying current capacity approximately that of \＃6 AWG wire．

## Scotch ${ }^{\circ}$ Self－Fusing Silicone Rubber Electrical Tape 70

Scotch Self－Fusing Silicone Rubber Electrical Tape 70 is a high－temperature，arc－and track－resistant tape composed of self－fusing，inorganic silicone rubber with an easy－tear and easy－strip liner．Scotch Self－Fusing Silicone Rubber Electrical Tape 70 can be used as base tape layer to cleanly re－enter connections．

# Scotch ${ }^{\circ}$ Self-Fusing, Silicone Heavy Duty Triangular Electrical Tape 70HDT 

## Scotch ${ }^{\circ}$ Self-Fusing, Silicone Rubber Heavy Duty

 Triangular Electrical Tape 70HDT is a high-temperature, arc-and-track resistant tape composed of self-fusing, silicone rubber with an easy-tear and easy-strip liner. This product is just like the Scotch ${ }^{*}$ Self-Fusing Silicone Rubber Electrical Tape 70HDT, but has a triangular tapered edge profile (thicker in the middle) and a blue guideline to make half-lapping application easier.
## Scotch ${ }^{\circ}$ Fire and Electric Arc Proofing Tape 77

Scotch Fire and Electric Arc Proofing Tape 77 is designed to protect all types of electrical cables when exposed to potential failures in an adjacent cable. Its unique formulation expands in fire to form a thick char buildup between the flame and the cable. The resulting firewall acts as a heat shield and flame barrier, thus protecting the nearby cables and accessories.

## 3M"'Linerless Splicing

## Compound 2242

3M Linerless Splicing Compound 2242 is a multipurpose rubber insulating tape designed for use in splicing and terminating wires and cables rated up to $194^{\circ} \mathrm{F}\left(90^{\circ} \mathrm{C}\right) .3 \mathrm{M}$ Linerless Splicing Compound 2242 is a highly conformable, linerless Ethylene Propylene Rubber (EPR)-based tape.

## 3M"' Scotchfil"' Electrical Insulation Putty

3M Scotchfil Putty is an electrical grade, rubber-based, elastic-type putty in tape form.
 It can be wrapped, stretched or molded around irregular shapes for quick, smooth insulation build-up. Use Scotchfil putty to insulate connections up to 600 volts and to round out high-voltage connections to gear, smooth bus bar irregularities, and make a moisture seal at ground wire exits in high-voltage splices. UL Recognized Component listing for $176^{\circ} \mathrm{F}\left(80^{\circ} \mathrm{C}\right)$ when used in combination with Super 33+ or 88 tapes (Guide OCDT2, File E59951).

## Scotch ${ }^{\circ}$ Electrical Insulating Varnished Cambric Tape 2510 and 2520

Scotch Electrical Insulating Varnished Cambric Tape 2510 and 2520 are cotton cambric fabric tapes, oil primed and coated with high-grade yellow electrical insulating varnish for quality electrical insulating. Scotch 2510/2520 are temperature stable tape products that allow for clean re-entry of electrical connections. Scotch 2510 has no adhesive and Scotch 2520 has a pressure-sensitive adhesive.

## LINERLESS RUBBER TAPES

| FEATURES | ADVANTAGES | BENEFTS |
| :--- | :--- | :--- |
| No liner | Makes job easier | Saves time, lower installed cost |
| Excellent thermal dissipation | More stable splices | Provides longer cable life, reduces <br> life cycle cost |
| Highly conformable | High quality moisture seal | Eliminates call-backs |

## Conforms foany situation

## Sealing and Insulating Mastic Tapes

## Scotch ${ }^{\circ}$ Vinyl Mastic Pads 2200 (125 mil) and Scotch ${ }^{\circ}$ Vinyl Mastic Roll 2210 ( 90 mil)

Scotch Vinyl Mastic Pads 2200 and Scotch

Vinyl Mastic Rolls 2210 are self-fusing,

MADE IN USA rubber-based insulating compounds laminated to a flexible, all-weather grade PVC backing. Both rolls and pads are resistant to abrasion, moisture, alkalies, acid, copper corrosion, UV and varying weather conditions.

## Scotch ${ }^{\circ}$ Electrical Moisture Sealant ( 45 mil) 06147 and 06149

Scotch Electrical Moisture Sealant 06147 and 06149 are self-fusing, rubber-based thin insulating mastic compounds laminated to a flexible, allweather grade PVC backing and are designed for moisture sealing of electrical connections up to 600 volts.

## Scotch ${ }^{\circ}$ Rubber Mastic Tape 2228

Scotch Rubber Mastic Tape 2228 is a conformable self-fusing rubber electrical insulating and sealing tape. Scotch ${ }^{*}$ Rubber Mastic 2228 consists of Ethylene Propylene rubber (EPR) backing coated with a strong, temperature-stable mastic adhesive.

## 3M"' Scotch-Seal" Mastic Tape Compound 2229

3M Scotch-Seal Mastic Tape Compound 2229 is designed for quick and easy
 insulating, padding and sealing of electrical connections. It is a conformable, durable, tacky mastic with an easy release liner for easy applications over irregular surfaces and provides excellent moisture resistance. It features superior self-healing characteristics after being punctured or cut.

Scotch 2210 Vinyl Mastic Roll

## 3M"' Scotchfil" Electrical Insulation Putty

Use as a build-up compound on highly
 irregular surfaces such as fittings and valves, providing a smooth, waterproof taping surface. Scotchfil Putty is soft and pliable-simply press putty into place on irregular surfaces, mold with finger pressure and overtape using standard methods.

## Scotch ${ }^{\bullet}$ Cable Jacket Repair Tape 2234

Scotch Cable Jacket Repair Tape 2234 has a tough abrasion-resistant backing for jacket repair on industrial cables, such as flexible portable power cables, draglines, diesel locomotive cable, welding and shipboard cables. Due to abrasive dragging and reeling of these flexible cables, the original jacketing gets damaged often and needs to be repaired. Scotch Cable Jacket Repair Tape 2234 is flexible and the self-healing property of the mastic keeps out moisture.

| SCOTCH® ${ }^{\oplus}$ CABLE JACKET REPAIR TAPE 2234 |  |  |
| :---: | :---: | :---: |
| FEATURES | ADVANTAGES | BENEFITS |
| Flexible, Hypalon backing | Oil resistance, abrasion, easy jacket repair | Makes job easier, no rigid areas on the reel |
| Self-fusing mastic | Fix for flexible cable, excellent moisture seal | Saves money, less moisture-related downtime |
| Compatible with many cable jackets | One solution for many cables | Saves time |

## Mining Tapes and Kits

## Scotch ${ }^{\circ}$ Heavy Duty Mining Tape 31

Scotch Heavy Duty Mining Tape 31 has a tough, abrasion-resistant backing for jacket repair on mining cables. Due to the extreme mining environment, the original jacket on mining cable gets damaged and needs repair. MSHA-approved Scotch Heavy Duty Mining Tape 31 offers an innovative solution for cable repair. With its Hypalon ${ }^{*}$ backing, abrasion-resistant properties and flame retardant mastic, the tape applies easily and remains flexible while maintaining a strong moisture seal.

3M" Mining Cable Splice Kit 3104

## Special Use Tapes

3M provides a wide range of tapes for special applications, from electrically insulating glass cloth tapes, to gaffers tape, and even duct tape.

## Scotch ${ }^{\circ}$ Glass Cloth Electrical Tapes 27 and 69

Scotch Glass Cloth Electrical Tapes 27 and 69 are woven glass cloth tapes with thermosetting, pressure-sensitive adhesives, which electrically insulate and provide mechanical protection at high temperatures. Scotch Electrical Tapes 27 Class B- $266^{\circ} \mathrm{F}\left(130^{\circ} \mathrm{C}\right)$ and 69 Class $\mathrm{H}-356^{\circ} \mathrm{F}\left(180^{\circ} \mathrm{C}\right)$ deliver high-temperature performance.

## Scotch ${ }^{\circ}$ Thread Sealant and Lubricant 48

Scotch Thread Sealant Tape 48 is a high temperature stable (PTFE) pipe thread sealant that provides a leakproof seal.

## Scotch ${ }^{\circledR}$ Performance Masking Tape 232

Scotch Performance Masking Tape 232 is a tough and extremely smooth, natural-colored, $6.3 \mathrm{mil}(0,14 \mathrm{~mm})$ thick, high performance, crepe paper tape. It is excellent for paint masking as well as many industrial applications. Scotch Masking Tape 232 will generally function during bake cycles of up to $250^{\circ} \mathrm{F}\left(121^{\circ} \mathrm{C}\right)$ for periods up to one hour. It should not be exposed to outdoor elements. It can be qualified to meet Fed. Spec. PPP-T-42C Type I and CID A-A-883B.

## Scotch ${ }^{\circ}$ General Purpose Masking Tape 234

Scotch General Purpose Masking Tape 234 is a naturalcolored, $6.0 \mathrm{mil}(0,14 \mathrm{~mm})$ thick, paper tape. It is excellent for general industrial applications. It will generally function during bake cycles of up to $250^{\circ} \mathrm{F}\left(121^{\circ} \mathrm{C}\right)$ for periods up to one hour. It should not be exposed to outdoor elements. It can be qualified to meet Fed. Spec. PPP-T-42C Type I and CID A-A-883B.

Scotch ${ }^{\circ}$ Glass Cloth Electrical Tape 27

## Scotch ${ }^{\circ}$ Transparent Duct Tape 2120-A

Scotch Transparent Duct Tape 2120-A offers clear advantages to ordinary duct tape. It is transparent when applied to make repairs less obvious, lasts six times longer than heavy duty duct tapes, tears easily by hand, and is resistant to water and UV rays. Scotch Transparent Duct Tape is extremely versatile and can be used on plastic, wood, glass, metal, vinyl and rubber.

## 3M"' Performance Plus Duct Tapes 8979/8979N

Offers six months of clean removal from most opaque surfaces; there is no sticky or dried-on adhesive residue to clean. Sunlight/UV and water resistant. It even stays on indoors and outdoors for up to one year without deterioration even in sunlight.

## Packaging and Palletizing Tapes

Customers stick with 3M tape because they know they are buying the best for their money. Part of being the best is innovation and reliability. Take our Scotch ${ }^{*}$ Box Sealing Tape 3750, as an example. Its innovative, high strength $3 \mathrm{M}^{\mathrm{mw}}$ Scotchpro ${ }^{\text {"w }}$ backing provides superior performance. Our Scotch ${ }^{\text { }}$ Palletizing Tapes 8884 and 8886 reduce the material cost and volume required to bundle and unitize products compared to conventional alternatives.

3M has a wide line of Scotch ${ }^{*}$ packing tapes for your needs, including label protection and pouch tapes.

Our 3M ${ }^{\text {" }}$ Highland ${ }^{\text {"" }}$ and 3M Temflex ${ }^{\text {m" }}$ brand packaging tapes are a general purpose alternative to the Scotch ${ }^{*}$ brand line. 3 M provides a wide range of tapes to meet

Scotch ${ }^{\circ}$ Superior Performance Box Sealing Tape 3750 our customers' needs.

SCOTCH ${ }^{\circ}$ SUPERIOR PERFORMANCE BOX SEALING TAPE 3750
